NZXT.
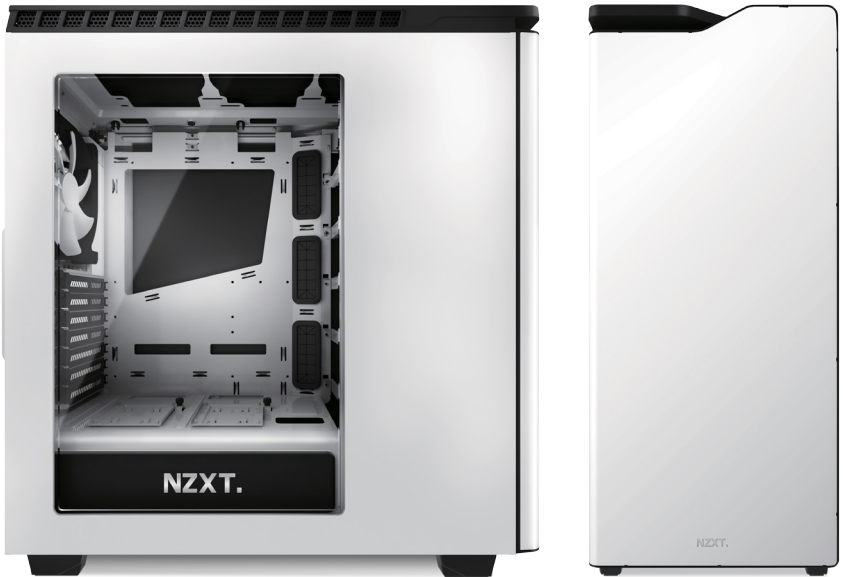

H440
REMARKABLY CLEAN
Mid Tower Chassis

The new H features a doorless, ODD-free front panel made entirely of steel while a large, full-view window reveals an interior specially engineered to make any build seamless and beautiful. On the inside, an integrated power supply shroud completely conceals cables and increases cable management space up to 80%. Additionally, two attached SSD trays mounted above the shroud allow you to easily showcase a remarkably clean interior.

The H440 comes standard with 360mm of direct CPU/GPU cooling behind its front panel, offering an unprecedented level of cooling right out of the box. Supporting both 140mm and 120mm fans, the steel top and front panels come Kraken™ ready– fitting radiators up to 360mm in size to offer comprehensive water cooling performance in a sleek, minimalist package.

With its newly designed interior, the H440 guarantees a streamlined PC-building experience without sacrificing any of the amenities builders are used to in a high performance case.

80% MORE
CABLE MANAGEMENT SPACE

An integrated power supply shroud completely conceals cables and increases cable management space up to 80%

The H440 comes standard with 4 of NZXT's newly designed FN V2 case fans. An unheard of 3x 120mm in front and 1x 140mm in rear
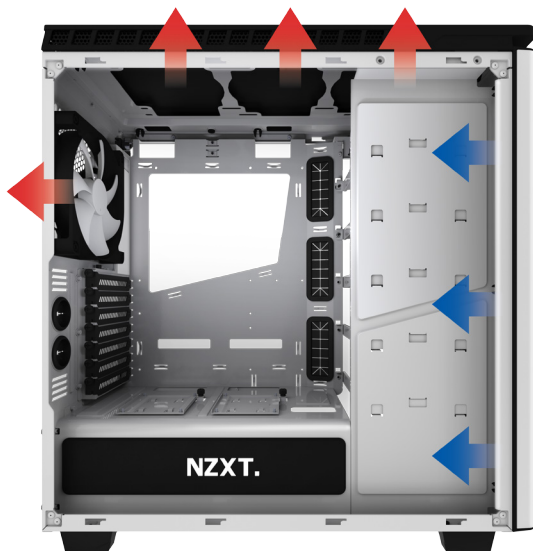

Newly designed steel HDD drive trays complement the H440's front and top steel panels

Liquid cooling support: 240mm 280mm or 360mm (front and top) The only case this small that can support 2x 360mm out of box.

AIRFLOW

SPECFICATION

Dimensions	W: 220mm H: 510mm D: 476mm
Material(s)	Steel, Plastic, Metal plated front and top panels
Total Weight	9.8 kg
Motherboard Support	ITX, Micro-ATX, ATX
