PHANTOM 240 | Mid Tower Chassis

PHANTOM 240

The Phantom 240 brings the Phantom's iconic high octane blend of mesh, performance, and style to a small and affordable package. As you look at the front panel you can see the heavy use of mesh specifically engineered to provide optimal airflow with a hint of that classic NZXT asymmetrical styling.

The exterior design sports the same aggressive look of the Phantom 530 in a smaller form factor.
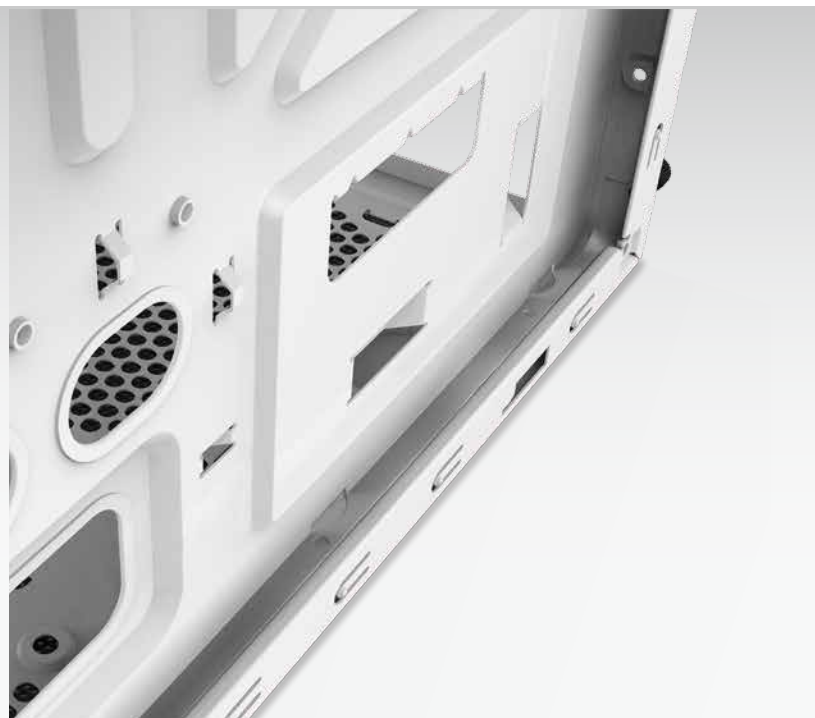

For intake, we include our new next generation FN V2 120mm fan for better airflow and quieter operation. The front of the case supports up to two 120mm fans while the bottom can support an additional 120mm fan.

The top mounted I/O comes fitted with twin USB 3.0 ports and the standard HD Audio headphone and microphone ports.

Cable management is easy with the 240 chassis, complete with seven cable routing holes and more than twenty zip tie locations to make even the most cluttered PC, stay cool and hot spot free.

Side window

We include a single removable hard drive cage to give you the option to keep the cage for drive capacity or remove the cage for more active cooling performance.
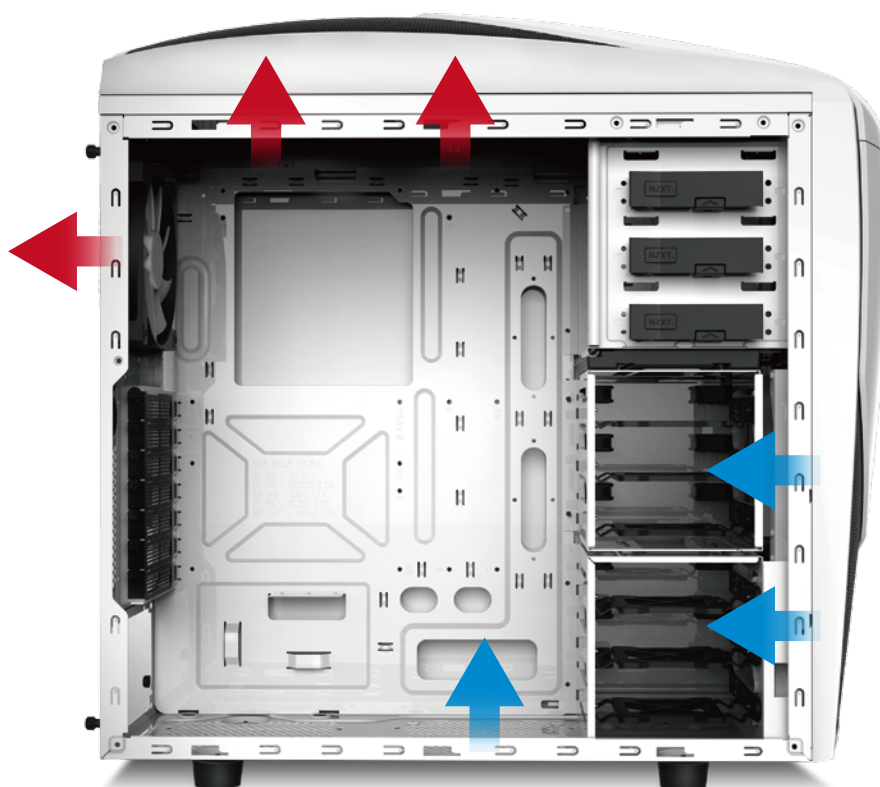

The P240 utilizes our tool-less 3.5" hard drive trays for hassle-free HDD installation.

The P240 also includes one 120mm fan for exhaust. At the top of the case, the P240 can support two 140mm or 120mm fans.

SPECFICATION

Dimensions(WxHxD)	195 x 530 x 529 mm
Material(s)	Plastic / Steel
Total Weight	8.1 Kg
Motherboard Suppot	ATX, MICRO-ATX, MINI-ITX
