# NZXT.™

SENTRY 3

FAN CONTROLLER

DESIGN

INTUITIVELY DESIGNED FOR THE DEMANDING BUILDER

The Sentry 3 brings you the best of both worlds by combining 15 watts of power per channel with an extraordinarily intuitive UI, giving you complete control over your entire rig's cooling with the swipe of a finger.

The Sentry 3's huge 5.4 inch color touchscreen is 33% larger than any other single bay fan controller screen on the market. The newly introduced PowerSlide Bar gives you ultimate control over your fan channels, letting you adjust speed on the fly. Channel linking allows you to join any of the five fan channels together and control the link group simultaneously.

The Sentry 3 includes integrated short protection, making the Sentry 3 and Mix 2 the only fan controllers to integrate short circuit, undervoltage, and overvoltage protection to keep both you and your computer safer.

The reimagined UI and high quality construction means you'll never have to choose style over performance with the sleek, powerful Sentry 3.

FEATURES

EXTRAORDINARILY LARGE SCREEN

The Sentry 3's huge 5.4 inch color touchscreen is 33% larger than most single bay fan controller screens.

COMPLETELY REDESIGNED USER INTERFACE

The newly introduced PowerSlide Bar gives you complete control over your fan channels, letting you adjust fan speed on the fly.

CREATE YOUR LINK GROUP

Channel linking allows you to join any of the five fan channels together and control the link group simultaneously.
